## THE SYDNEY SHOW.

At the forthcoming R. A. Society's Easter Show, the Crown Studios, of 48 George-street, Sydney, have made arrangements to exhibit in the Main Pavilion a very comprehensive series of large portraits of the most prominent graziers, agriculturists, and live-stock breeders of the Commonwealth.

Their gallery of "The Men on the Land" will present one of the most attractive Courts at the Show, in so much that it is not likely to be a bold display of the highest type of enlarged portraiture, but like the men in the land, the portraits will bear a label which states the name of the man, and of his estate, and also the particular branch of agriculture or stock-raising that he has made a success of.

No one interested in the development of our great pastoral and agricultural industries will be keenly interested in this splendid collection of portraits of the hardy old pioneers who built up the enormous herds and created the great wealth which we all directly or indirectly partake of, nor in the portraits of the newer generation, who are so ably shouldering the burdens of their predecessors.

Mr. Mark Shaw, of the Crown Studios, is to be commended for providing an exhibition of such interest and value.

## INCREASED WAGES DEMANDED.

## ASSASSINATION.

## EGYPTIAN PREMIER SHOT.

## BY NATIONALIST OFFICIAL.

LONDON, Feb. 21.

An attempt was made on the life of the Premier of Egypt, Boutros Pasha, yesterday.

Wardany, a Mohammedan student, fired five shots at the Premier outside the Foreign Office at Cairo, and seriously wounded him. Boutros Pasha was removed to a hospital.

Wardany was seized, and in his pocket was found Egyptian Nationalist literature. He had acted as secretary of the Young Egyptian Congress at Geneva. Wardany declared that he desired to avenge the Denshaw affair, and the prolongation of the Suez Canal concession.

The man continued to demand an increase in the minimum rate of wages from 30 to 40 per cent. over the 1870 standard.

Three months notice to terminate the contract board agreed to by the South Wales coalfield was served at the end of the year by the secretary to the workmen's side of the board. The notice will expire on March 31, when, if a new agreement is not reached, the miners will automatically cease to work. In the meantime, all contracts between the owners and workmen will automatically cease. In the negotiations which are to take place, it is understood that the owners will not only involve the introduction of very important changes, but that they will also be in serious position as regards the men's programme. The miners' side of the board, the South Wales coal-owners may claim accumulated damages of about £400,000 for the month of March next, and the miners' side for the month of April next, for the period of 60 hours a year under the Eight Hours Act. The South Wales Miners' Federation decided to counter-claim an equal amount under the judgment given in 1891, giving a right to payment for small coal.

LONDON, Feb. 21.

Evidence given before a committee of Congress inquiring into the Alaskan mining concessions, shows that the Pierpont-McLean-Senator Guggenheim syndicate arranged to buy half the Cunningham coal claims in Alaska for £20,000.

Mr. Birch, the syndicate manager, informed the committee that the Cunningham mines contained 50,000,000 tons, and that the profit would be £5,000,000.

The cost of the entire district was estimated at 500,000,000 tons, the net value of £10,000,000.

Under the present land laws the whole would have passed into private pockets unless Mr. (then President) Roosevelt had withdrawn the Alaskan lands from use pending legislation.

## BRITISH MINISTRY.

## NEW APPOINTMENTS.

## STEAMER MORESBY ON A REEF.

LONDON, Feb. 21.

The following appointments in the Ministry are announced:

W. WEDGEWOOD BENN, Junior Lord of the Treasury.

E. J. SOARES, Junior Lord of the Treasury.

The Moreby was a voyage from the Solomon Islands and Papua bound to Cooktown, where she was due on Thursday last, and her non-appearance there caused some amount of anxiety, especially as it had been arranged that she should tranship her passengers and mails for Sydney to the A.U.S.A. Company's steamer.

Mr. W. S. MONTAGUE, Parliamentary Under-Secretary for India, in succession to the Master of Elbourn.

Captain CECIL NORTON, Assistant Postmaster-General, in succession to Sir Henry Norman.

The appointment of the Junior Lords of the Treasury will necessitate by-elections.

Mr. W. Wedgewood Benn has represented the revised regulations under the Commerce (Trades Descriptions) Act of 1905. The regulations are to come into operation on April 1 next, but where radical departures have been made the new requirements are not to be strictly enforced for two or three months. The option previously allowed to brand the trade description on the article itself or its covering has been restricted, and now the trade description is to be put on the coverings. The revised regulations are not made to apply to any goods other than those dealt with in the original regulations, excepting pie goods. It is now provided in regard to articles of apparel and pie goods that only the principal material from which they are made is to be used if the goods are to be sold. The revised regulations make it clear that if the goods are to be sold, they must be made of leather and cardboards.

Mr. Ernest Joseph Scarfe is 44 years of age, and has represented the Barnstaple division of Devonshire since 1896. He was formerly a solicitor in Manchester.

Mr. Montague is the third engineer (Mr. Campbell), who reached Cooktown last night.</p

Rates set out for various ages. If a wheeler was 15 he got 6s a day, if 20 8s, and when 25 a day.

Mr. Gregory: Can the whalers getting it as a day's pay expect to get paid the same amount as a man getting 8s a day?

Hon. Senator: They could not class men according to ability. If they did they would make an award touching individuals by name.

Mr. Gregory said that previously he got an interpretation from his Honor in regard to the rates of men, which was he understood, the nine hours bank to bank included an hour for meals.

Hon. Senator: I said whatever time he got for meals was included in the nine hours.

He and his colleagues were taking a man to work nine hours without time for meals, and whatever was the break it was included in the nine hours.

The men were to be paid the same as they had worked at the rate of so much for nine hours.

Mr. Gregory pointed out that under the award some of the shiftmen were getting less than they used under the old conditions, as on Saturday instead of being paid for a full shift, as before, they were paid only for the hours they worked.

Hon. Senator: They must be paid for the time they worked at the rate per hour.

### TRouble WITH THE COAL-LUMPERS.

#### SIZE OF BASKETS.

Yesterday morning some trouble occurred along the wharfs, and as a result of it the coal-lumpers at work on two vessels, but at 3 p.m. all was quiet and peaceful.

The trouble arose over the basket question. Although the coal-lumpers at Friday's conference agreed to handle any size of basket (excepting the 100 lb. ones) the associations that basket above certain weight are not used for the actual carrying of the coal, they object to the right to handle baskets weighing lighter than 100 lb.

The number of non-united men, however, is now only a dozen or so at wharf-labourers' work, and those are all on the Central Wharf.

#### TAILORS' UNION.

CENSURE OF THE GOVERNMENT.

The Senate adopted some time ago by the Sydney Labourers' Union the motion of the Wade Government for its action in regard to the strike, and which has been passing through the unions one after another, was carried last night by the Tailors' Union at a meeting in the Trades Hall.

STEAMER FRANKLYN SIGNALLED.

#### COAL FOR THE VICTORIAN GOVERNMENT.

The steamer Franklyn unexpectedly made her appearance on the coast yesterday, and was reported passing Newcastles during the afternoon. Last night the Franklyn drove to off Sydney Harbour for orders, and received instructions to proceed to Melbourne.

It had transpired that she had been laden with a full cargo of coal from Japan, and to the Victorian Government on condition the steamer signalled the Heads before February 22.

#### AMUSEMENTS.

CRITERION OPERA SINGERS CLOSE.

The farewell night of the Rupert Glaister and Mervyn Coe Opera company, as an amateur organisation, drew a crowded audience to the Criterion Theatre last night when "The Girl from the North Country" was urged on her gay career by double encores, and the curtain fell at 10.30 p.m. and a general disposition to make the evening a success.

At the end of the evening there was an appropriately humorous gift to the conductors, and there was a call upon Miss Ruth Hunt, and again, when the curtain was cleared, the audience remarked that she could not say how sorry she was to leave after two years, but she would return.

Mr. Edwin Brett, leading forward his wife, Miss Emily, in her rôle of "Baloo," performed with great dash and spirit, while the orchestra, which included the famous Duttons, answered a number of questions, and a vote of confidence was carried enthusiastically.

##### OPENS CAMPAIGN AT WOLLONGONG.

WOLLONGONG, Monday.

The Minister for Home Affairs commenced his campaign in the Town Hall to-night.

There was a crowded audience, and the speaker met with an excellent reception.

Mr. Fullerton said that the present fight was between socialism and anti-socialism.

He said that a conflict tariff had to be tackled.

The present tariff was full of anomalies.

And the Government must take steps to rectify it.

They heard a great deal about the iniquities of coalition, but the Labour party had always lived in an atmosphere of suspicion.
